

FEURST FASTKEY

GET into the Future with Fastkey...
The best pin retention system
on the market.

Super tight tolerance from the protective locking system inside the tooth which avoids wear.

Pin Retainer

Preformed resilient material has inner ribs enabling excellent retention.

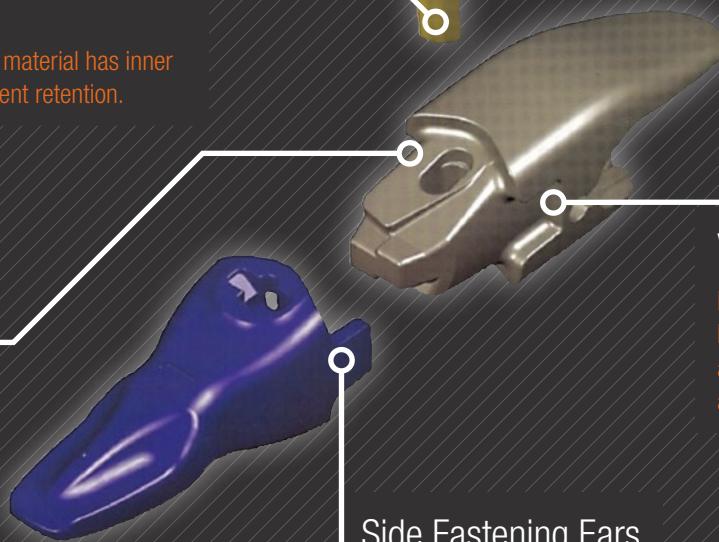

Horizontal Stabilisers

Reduce the torsional load, meaning less nose wear, resulting in extended nose and adaptor life.

Pin

Reliable vertical with anti-drop lock system featuring short assembling and disassembling time.

Vertical Stabilisers

Reduce lateral forces giving better fit, increasing the tooth/adaptor combined strength and reducing further wear.

Side Fastening Ears

With over 50 years of experience, Feurst bring you the latest in quality wear parts. Proudly distributed exclusively by ECH.
